

PREMIER COLLECTION SERIES

MASTERING EXCEL WITH VBA

Explore Excel from a different dimension through Visual Basic for Applications (VBA), and impress stakeholders with rapid, robust and powerful spreadsheet and financial modelling solutions. *Mastering Excel with VBA* will help you unlock the potential for unlimited functionality in Excel, develop powerful business analysis, save you time through the automation of repetitive tasks, and enhance the experience of all users.

WHAT YOU WILL TAKE AWAY FROM THIS COURSE

- An understanding of the potential of VBA for unlimited functionality
- Best practice methodology rules and techniques
- Comprehensive handbook with course theory and real-life case studies
- Access to our online tutorials, blogs and handy tips & tricks

IS THIS PROGRAMME FOR YOU?

Yes, this course is for you if you want to get the skills and confidence to write your own Excel macros using VBA code and expand your analytical skill set beyond standard Excel functionality. Typical attendees include accountants, CPAs, CFAs, consultants, managers, analysts and financial model developers.

COURSE PREREQUISITES

Intermediate to advanced knowledge of Excel. This course does not require specific industry knowledge, but a good working understanding of general functions and features in Excel is useful.

DURATION
1 DAY

DELIVERY
IN-HOUSE OR PUBLIC

KEY LEARNINGS

- Automate repetitive tasks for you and your colleagues to save hours of work
- Familiarise yourself with, and get comfortable in, the macro environment within Excel
- Learn how to effectively build VBA macros from original code rather than recording
- Develop techniques for debugging and reviewing VBA code

TRAINER SUPPORT HOTLINE

We view every training course as a long term commitment to course delegates. Our objective is not just to take you through the training and then leave you to your own devices - it is to fundamentally transform your Excel and financial modelling skills.

This is why your course fee includes post-course access to your trainer and the Corality Trainer Support Hotline.

Find full course details and easy online registration at www.corality.com/training

“

Corality are probably the best trainers/consultants I have dealt with. They are very knowledgeable and had the ability to explain concepts to people of all backgrounds - from beginners to advance.

Erin Parkinson

Treasury Analyst, INPEX

ABOUT SMART FINANCIAL MODELLING

SMART financial models enable smart decisions, giving you confidence when it counts. Our best practice methodology is an exceptionally powerful platform for financial forecasting and scenario analysis, built upon guiding rules to create consistency, transparency and flexibility.

Consistent application of SMART gives you a positive collaboration tool, with transparent calculations that will drastically reduce your model risk. It's the perfect financial modelling standard for rapid and robust scenario analysis, offering you consistent quality, meaningful comparisons and technical flexibility for large investment decisions or corporate forecasting.

All Corality's training courses are built upon the foundations of SMART.
